Objective

As an experienced Lighting & Compositing Artist from Mumbai, India, my passion is to bring virtual worlds to life through my art. With over 8 years of experience in CG production, I specialize in lighting/rendering, compositing. I am skilled in mixing traditional and digital methods to achieve visually stunning and engaging results. Additionally, I have a deep understanding of current aspects of CG production. My objective is to continue applying my skills and experience to create high-quality content for feature films, commercials, and various animation projects.
